## 2018: Salton Sea Advisory Committees

## **Meeting Framework**

Updated 1/9/2018

Jan 30   Science   Committee   Committee   Present Habitat Criteria for the SSMP / Input on Habitat Standards for the Species Conservation Habitat Project Discuss input on Design-Build Contract for New River West Identify tentative quarterly meetings for 2018	updated 1/9/2	I	
Standards for the Species Conservation Habitat Project Discuss input on Design-Build Contract for New River West Identify tentative quarterly meetings for 2018	Date	Committee	Topics
Discuss input on Design-Build Contract for New River West Identify tentative quarterly meetings for 2018  Feb 6 9-11:30 Air Quality Committee Feb 7 10-4:00 Feb 7 10-4:00 Feedback received and integrated into work plan Priorities in 10-Year Plan given stipulated order and potential bond funding Reassess habitat criteria using Habitat Assessment and Planning Tool as it relates to levee height (Division of Safety of Dams Exemption) Projects in collaboration with geothermal industry and Salton Sea Authority Updates: CEQA Complete in Dec 2017  Feb/Mar Outreach Committee  March /April Committee  March /April April/May Science Committee  June Long Range Committee  June 10-Year Plan Committee  Di-Year Plan Committee  Recap how Feb 2018 feedback incorporated Hydrology Model Results Updates on Construction and 10-Year Plan Work Plan Tasks  Science Committee  Oct/Nov  10-Year Plan Committee  Review draft 10-Year Plan Annual Report Begin understanding monitoring findings and performance of early projects and how this shapes future work			· · · · · · · · · · · · · · · · · · ·
Identify tentative quarterly meetings for 2018	, 12		Discuss input on Design-Build Contract for New River West
Feb 7 10-4:00  Feb 7 10-4:00  Tommittee  Feedback received and integrated into work plan Priorities in 10-Year Plan given stipulated order and potential bond funding Reassess habitat criteria using Habitat Assessment and Planning Tool as it relates to levee height (Division of Safety of Dams Exemption) Projects in collaboration with geothermal industry and Salton Sea Authority Updates: CEQA Complete in Dec 2017  Feb/Mar  March Committee  March April/May Science Committee  April/May  Science Committee  June  Long Range Committee  June  10-Year Plan Committee  April/May  Tommittee  Specific topics TBD (likely to include high-level input for SCH monitoring program)  Recap how Feb 2018 feedback incorporated Hydrology Model Results Updates on Construction and 10-Year Plan Work Plan Tasks  June/July  Science Committee  Oct/Nov  10-Year Plan Committee  Review draft 10-Year Plan Annual Report Begin understanding monitoring findings and performance of early projects and how this shapes future work			
Feb 7 10-4:00  Feb 7 10-4:00  Tommittee  Feedback received and integrated into work plan Priorities in 10-Year Plan given stipulated order and potential bond funding Reassess habitat criteria using Habitat Assessment and Planning Tool as it relates to levee height (Division of Safety of Dams Exemption) Projects in collaboration with geothermal industry and Salton Sea Authority Updates: CEQA Complete in Dec 2017  Feb/Mar  March Committee  March April/May Science Committee  April/May  Science Committee  June  Long Range Committee  June  10-Year Plan Committee  April/May  Tommittee  Specific topics TBD (likely to include high-level input for SCH monitoring program)  Recap how Feb 2018 feedback incorporated Hydrology Model Results Updates on Construction and 10-Year Plan Work Plan Tasks  June/July  Science Committee  Oct/Nov  10-Year Plan Committee  Review draft 10-Year Plan Annual Report Begin understanding monitoring findings and performance of early projects and how this shapes future work	Fab /	A in Our adity	Air District IIn datas on Dust Control in On on Space
Priorities in 10-Year Plan given stipulated order and potential bond funding Reassess habitat criteria using Habitat Assessment and Planning Tool as it relates to levee height (Division of Safety of Dams Exemption) Projects in collaboration with geothermal industry and Salton Sea Authority Updates: CEQA Complete in Dec 2017  Feb/Mar Outreach Committee Prepare public workshops on 10-year plan and long range plan and June 5 election preparation Organize EJ subcommittee Ocammittee Ocammittee Porum for Alternative Long Range Solutions for Salton Sea Management and Water Quality  Science Committee Specific topics TBD (likely to include high-level input for SCH monitoring program)  June 10-Year Plan Committee Parage Plan Fee Beebback incorporated Hydrology Model Results Updates on Construction and 10-Year Plan Work Plan Tasks  June/July Science Committee Oct/Nov 10-Year Plan Committee Review draft 10-Year Plan Annual Report Begin understanding monitoring findings and performance of early projects and how this shapes future work			Air District opadies on Dost Control in Open spaces
Friorities in 10-Year Plan given stipulated order and potential bond funding Reassess habitat criteria using Habitat Assessment and Planning Tool as it relates to levee height (Division of Safety of Dams Exemption) Projects in collaboration with geothermal industry and Salton Sea Authority Updates: CEQA Complete in Dec 2017  Feb/Mar Outreach Committee Prepare public workshops on 10-year plan and long range plan and June 5 election preparation Organize EJ subcommittee  March (April Committee Prorum for Alternative Long Range Solutions for Salton Sea Management and Water Quality  Science Committee Specific topics TBD (likely to include high-level input for SCH monitoring program)  June Long Range Committee Sea Management  June 10-Year Plan Committee Recap how Feb 2018 feedback incorporated Hydrology Model Results Updates on Construction and 10-Year Plan Work Plan Tasks  June/July Science Committee Science Symposium  Review draft 10-Year Plan Annual Report Begin understanding monitoring findings and performance of early projects and how this shapes future work	Feb 7		Feedback received and integrated into work plan
Planning Tool as it relates to levee height (Division of Safety of Dams Exemption) Projects in collaboration with geothermal industry and Salton Sea Authority Updates: CEQA Complete in Dec 2017  Feb/Mar Outreach Committee Prepare public workshops on 10-year plan and long range plan and June 5 election preparation Organize EJ subcommittee  March April Long Range Committee Forum for Alternative Long Range Solutions for Salton Sea Management and Water Quality  April/May Science Committee Specific topics TBD (likely to include high-level input for SCH monitoring program)  June Long Range Committee 2018 Forum for Alternative Long Range Solutions for Salton Sea Management  June 10-Year Plan Committee Recap how Feb 2018 feedback incorporated Hydrology Model Results Updates on Construction and 10-Year Plan Work Plan Tasks  June/July Science Committee Science Symposium  Review draft 10-Year Plan Annual Report Begin understanding monitoring findings and performance of early projects and how this shapes future work	10-4:00		, , , , , , , , , , , , , , , , , , , ,
Sea Authority Updates: CEQA Complete in Dec 2017  Feb/Mar Outreach Committee Prepare public workshops on 10-year plan and long range plan and June 5 election preparation Organize EJ subcommittee  March /April Long Range Committee Forum for Alternative Long Range Solutions for Salton Sea Management and Water Quality  Science Committee  Specific topics TBD (likely to include high-level input for SCH monitoring program)  June Long Range Committee  2018 Forum for Alternative Long Range Solutions for Salton Sea Management  Recap how Feb 2018 feedback incorporated Hydrology Model Results Updates on Construction and 10-Year Plan Work Plan Tasks  June/July Science Committee  Oct/Nov 10-Year Plan Committee  Review draft 10-Year Plan Annual Report Begin understanding monitoring findings and performance of early projects and how this shapes future work			Planning Tool as it relates to levee height (Division of Safety
Feb/Mar Outreach Committee Prepare public workshops on 10-year plan and long range plan and June 5 election preparation Organize EJ subcommittee  March /April Long Range Committee  Forum for Alternative Long Range Solutions for Salton Sea Management and Water Quality  Specific topics TBD (likely to include high-level input for SCH monitoring program)  June Long Range Committee  June 10-Year Plan Committee Recap how Feb 2018 feedback incorporated Hydrology Model Results Updates on Construction and 10-Year Plan Work Plan Tasks  June/July Science Committee  Oct/Nov 10-Year Plan Committee  Review draft 10-Year Plan Annual Report Begin understanding monitoring findings and performance of early projects and how this shapes future work			,
Committee plan and June 5 election preparation Organize EJ subcommittee  March /April Long Range Committee Forum for Alternative Long Range Solutions for Salton Sea Management and Water Quality  April/May Science Committee Specific topics TBD (likely to include high-level input for SCH monitoring program)  June Long Range Committee Sea Management  June 10-Year Plan Committee Recap how Feb 2018 feedback incorporated Hydrology Model Results Updates on Construction and 10-Year Plan Work Plan Tasks  June/July Science Committee Science Symposium  Oct/Nov 10-Year Plan Committee Review draft 10-Year Plan Annual Report Begin understanding monitoring findings and performance of early projects and how this shapes future work			<b>Updates:</b> CEQA Complete in Dec 2017
March /April Long Range Committee  April/May Science Committee  June Long Range Committee  June 10-Year Plan Committee  Oct/Nov 10-Year Plan Committee  Oct/Nov 10-Year Plan Committee  Review draft 10-Year Plan Annual Report Begin understanding monitoring findings and performance of early projects and how this shapes future work	Feb/Mar		
April Committee  April/May  Science Committee  June  Long Range Committee  June  10-Year Plan Committee  Dune/July  Science Committee  Oct/Nov  April/May  Science Committee  Management and Water Quality  Specific topics TBD (likely to include high-level input for SCH monitoring program)  2018 Forum for Alternative Long Range Solutions for Salton Sea Management  Recap how Feb 2018 feedback incorporated Hydrology Model Results  Updates on Construction and 10-Year Plan Work Plan Tasks  Science Symposium  Committee  Oct/Nov  10-Year Plan Review draft 10-Year Plan Annual Report Begin understanding monitoring findings and performance of early projects and how this shapes future work			Organize EJ subcommittee
June Long Range Committee 2018 Forum for Alternative Long Range Solutions for Salton Sea Management  June 10-Year Plan Committee Recap how Feb 2018 feedback incorporated Hydrology Model Results Updates on Construction and 10-Year Plan Work Plan Tasks  June/July Science Committee Science Symposium  Oct/Nov 10-Year Plan Committee Review draft 10-Year Plan Annual Report Begin understanding monitoring findings and performance of early projects and how this shapes future work			
June 10-Year Plan Committee Recap how Feb 2018 feedback incorporated Hydrology Model Results Updates on Construction and 10-Year Plan Work Plan Tasks  June/July Science Committee Science Symposium Committee Review draft 10-Year Plan Annual Report Begin understanding monitoring findings and performance of early projects and how this shapes future work	April/May		, , , , , , , , , , , , , , , , , , , ,
Committee Hydrology Model Results Updates on Construction and 10-Year Plan Work Plan Tasks  June/July Science Committee  Oct/Nov 10-Year Plan Review draft 10-Year Plan Annual Report Committee Begin understanding monitoring findings and performance of early projects and how this shapes future work	June		
June/July Science Committee  Oct/Nov  10-Year Plan Committee  Review draft 10-Year Plan Annual Report Begin understanding monitoring findings and performance of early projects and how this shapes future work	June		Recap how Feb 2018 feedback incorporated
June/July Science Committee Science Symposium  Oct/Nov 10-Year Plan Committee Review draft 10-Year Plan Annual Report Begin understanding monitoring findings and performance of early projects and how this shapes future work			Hydrology Model Results
Committee  Oct/Nov  10-Year Plan Committee  Begin understanding monitoring findings and performance of early projects and how this shapes future work			Updates on Construction and 10-Year Plan Work Plan Tasks
Committee  Begin understanding monitoring findings and performance of early projects and how this shapes future work	June/July		Science Symposium
of early projects and how this shapes future work	Oct/Nov		Review draft 10-Year Plan Annual Report
Address any Science Committee recommendations that			
			Address any Science Committee recommendations that

		affect project design
Oct/Nov	Science Committee	Specific topics TBD
Oct/ Nov	Outreach Committee	Post election planning: outreach and partnering to advance 10-Year Plan
